

St. Clair County Republican Party
Resolution 2024-002
January 12th, 2024

Resolution Supporting Kristina Karamo

Whereas, the state of the Republican Party has devolved over a period of many years until the vast majority of Delegate seats were left unfilled leaving a clear path for the entitled elite to do their personal bidding.

Whereas, the Republican Party has been infiltrated by multiple avenues of non-Republican thinking with a severe lack of resolve to uphold the Republican Platform and protect and project the most basic will of the People, specifically the Republican voter.

Whereas, many of the previously vacant Delegate seats have been filled by true Republican Delegates, duly elected by the People they represent and said Delegates have found their voice and with pure hearts and astonishing fervor, stood their ground in solidarity to restore the voice of the People.

Whereas, in recent years, our duly elected Republican Delegates stood their ground and used their voice in solidarity to successfully put a halt to the unseating of many duly elected Republican Delegates from being replaced by oligarch appointed delegates who were recruited to diminish the will of the People and enforce the will of certain people who operate behind the curtain.

Whereas, the duly elected Republican Delegates who truly represent the will of the People, replaced the prior Chair to the Michigan Republican Party by way of a fair and legal election at which nine (9) other candidates were defeated and Kristina Karamo was elected as the Chairwoman to the Michigan Republican Party.

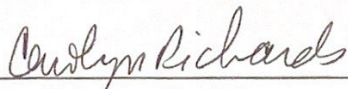

Whereas, a certain group of people who call themselves Republican Delegates have been unhappy with the choice of the Republican Delegates who truly represent the will of the People and within weeks of the election of Kristina Karamo, they began their campaign against her, using ill-conceived tactics of sabotage and falsified information in their effort to unseat Kristina Karamo from the position we elected her to fulfill.

Whereas, Kristina Karamo has demonstrated amazing patience and strong leadership in her role as our Michigan Republican Chairwoman, resolving many challenging situations, utilizing good judgement with determination, showing her commitment to the Republican Party Platform, expending tremendous effort to unify and strengthen our Party and showing the utmost confidence against all odds.

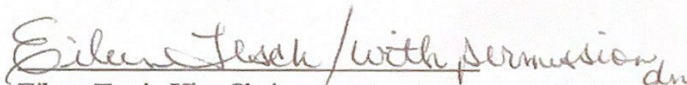

Therefore, be it resolved, that the St. Clair County Republican Party expresses its unwavering support for Kristina Karamo's leadership and appreciates her dedication to advancing the party's beliefs and goals as well as working toward the preservation of the very survival of our future generations.

And now, therefore be it further resolved, that the St. Clair County Republican Party condemns the recent actions of and will not tolerate the sabotage of the Republican Party or the dilution of our Delegate votes being erased by any individual person or group such as those within the Telegram Channel Group and/or any of its sidelines who falsely represent themselves as MIGOP INFORMATION and seek to sabotage Kristina Karamo and by extension sabotage the success of the Michigan Republican Party.

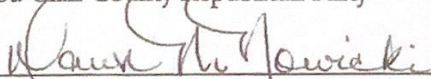

Approved by a majority of the St. Clair County Republican Party Executive Committee present and voting on this day, January 8th, 2024.
